- Multi-purpose Steriliser

## About Us

**Offering a wide range of commercial use ultraviolet (UV-C) sterilisers that can easily sanitise toys, books, electronics, toothbrushes, sports and musical instruments, key cards, remote controllers, cups, chopping boards & knives, kitchen tools, overgarments, rubber boots and shoes, beauty salon tools, etc.**

**We are dedicated in bringing high-quality, value-added products to the region to improve hygiene, safety and convenience in daily lives**

## Our Products

### Toy Sterilisers

**Unsanitised toys and playing materials can cause skin diseases such as atopy, as well as other infectious diseases like** <span style="color:red">**hand-foot-and-mouth disease (HFMD)**</span>

### Toothbrush Sterilisers

**Toothbrush sanitation management has never been easier with the "Denti-Care" series**

**Toothbrushes can be hung inside the steriliser and easily sanitised**

**MAIN FEATURES**

- **Ultraviolet sterilisation and drying function**
- High-grade stainless steel
- **Prevention of all types of infectious diseases**
- Convenient and easy to use
- Stylish design with different colours
- **Automatic safety control device**

Wall-rack toothbrush
24 36 48 persons

# Our Products

## Book Sterilisers

Our built-in fan motor ventilation system and ultraviolet lamps ensure effective sterilisation of all book pages

Books and documents sanitation management has never been easier with our Book Ultraviolet sterilisers

Books can be placed inside the steriliser and easily sanitised conveniently at self-service kiosks

**Suitable for use in preschools, childcare centers, kindergartens, student care centers, schools, community libraries, early intervention centers, eldercare centers, nursing homes, senior day care activity centers, etc.**

### MAIN FEATURES

**Ultraviolet sterilisation and fan motor function**

High-grade stainless steel
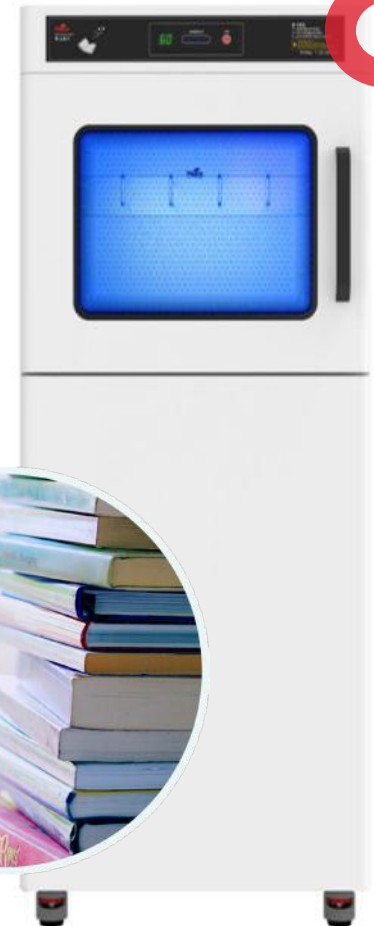

**Prevention of all types of infectious diseases**

Convenient and easy to use

Stylish design with different colours

**Automatic safety control device**

# Our Products

## Chopping Boards & Knives Sterilisers

Chopping boards, knives and kitchen tools that are not properly sanitised can cause potential **food contamination** and **lead to food poisoning** and other bacteria infections like **E. Coli** and **Salmonella**

**Moveable detachable transport cart** for easy loading and usage helps prevent workers' safety accident

## Multi-purpose Sterilisers

Different compartment sections in the steriliser for **easy segregation**

Suitable for use in schools that do in-house cooking, canteens, central kitchens, cafes, restaurants, food courts, hotels, hospitals with food preparation areas, etc.

All types of kitchen tools and overgarments can be easily sanitised through **ultraviolet sterilisation** and **hot-air drying function**

## MAIN FEATURES

**Ultraviolet sterilisation and drying function**

**High-grade stainless steel**

**Prevention of all types of infectious diseases**

**Convenient and easy to use**

**Fine and simple storage**

**Automatic safety control device**

**Temperature setting**

# Our Products

## Utensils Sterilisers

**All types of cutlery, including metal and bamboo straws can be placed inside and sterilised through high heat**

- **High heat sterilisation**
- **High-grade stainless steel**
- Convenient and easy to use
- **Automatic safety control device**
- Simple and stylish design
- Temperature setting

## Cups Collection & Sterilisers

**Great for for use in corporate cafeterias, canteens, food courts, restaurants, cafes, hotels, etc. with self-serving areas for patrons to take and return their cups and utensils**

**Can be used to sterilise cups, utensils, plates, different types of kitchen tools through ultraviolet sterilisation and hot-air drying function**

## MAIN FEATURES

- **Ultraviolet sterilisation and drying function**
- **High-grade stainless steel**
- **Prevention of all types of infectious diseases**
- **Convenient and easy to use**
- **Fine and simple storage**
- **Automatic safety control device**
- **Temperature setting**

# Our Products

## Overgarment Sterilisers

Suitable for use in hospitals, clinics, research and healthcare labs, clean rooms, food manufacturing and preparation facilities that require **high levels of sanitation**, etc.

Overgarments, gowns and sanitary apparels can be placed inside the steriliser and easily sanitised

**Plasma ioniser function** in place for **easy deodorisation**

## Boots & Shoes Sterilisers

Rubber boots and shoes can be easily sanitised through ultraviolet sterilisation and hot-air drying

Plasma ioniser function helps to **effectively remove odour** from the boots and shoes

## MAIN FEATURES

**Ultraviolet sterilisation and drying function**

**High-grade stainless steel interior**

**Prevention of all types of infectious diseases**

**Convenient and easy to use**

**Simple and stylish design**

**Automatic safety control device**

# Our Products

## Beauty Salon Tools Steriliser

**Suitable for use in beauty and spa salons, hair salons, manicure and pedicure parlors, country clubs, etc.**

**All types of beauty salon tools ie. manicure, pedicure tools, combs, scissors, dermatological tools, makeup tools etc. can be placed inside the steriliser and easily sanitised through ultraviolet sterilisation**

**Stand-alone or Wall-mountable**

## MAIN FEATURES

**Ultraviolet sterilisation and air-drying function**

**Convenient and easy to use**

**High-grade stainless steel interior**

**Stylish design available in 2 colours**

**Prevention of all types of infectious diseases**

**Automatic safety control device**

# Effectiveness of our Sterilisation Equipment

**Medical-grade** sterilisation that **effectively eliminate 99.99%** of germs and bacteria after just 1 cycle of sterilisation (**only 10 mins**) with 1 simple touch of a button

- Made in Korea – Premium quality guaranteed

- Sterilisation effectiveness certified by Singapore TUV SUD PSB

**TÜV SUD**
**PSB Singapore**

## Escherichia Coli

**Causes food poisoning, gastroenteritis and meningitis**
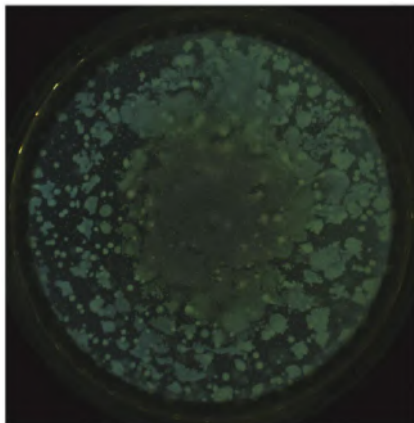

Before Sterilisation
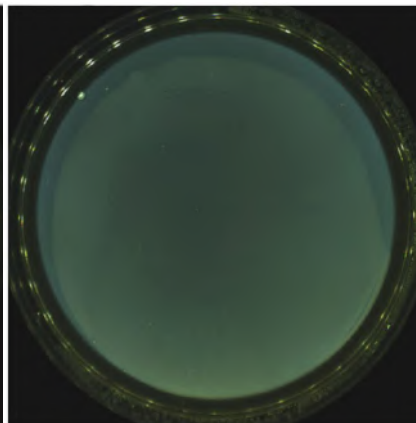

After Sterilisation

## Salmonella Typhimurium

**Causes egg-associated Salmonellosis (fever, abdominal cramps, diarrhoea)**
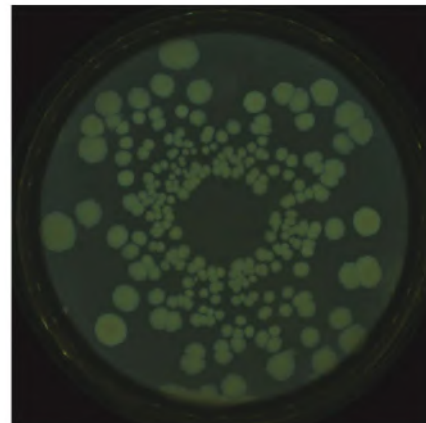

Before Sterilisation
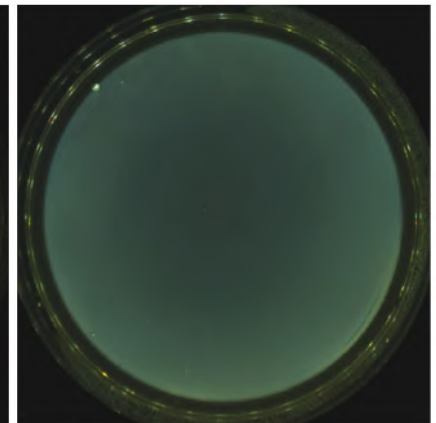

After Sterilisation

**Note:** Microbiology testing has been carried out by Singapore TUV SUD PSB – Microbiology Chemical & Materials
**Test Report No.:** 7191223915-CHM19-01-RC
